MODERN

OBSTETRICS & GYNECOLOGY

Dr. John Reyes and Dr. Ingrid Reyes

Modern Obstetrics & Gynecology is the pride and passion of its two physicians, Dr. John Reyes and Dr. Ingrid Reyes. As the area's only husband and wife Ob/Gyn team, this practice sets a tone different from your typical doctor's office. First walking into the practice, you'll feel the difference—it's comforting, warm, and calm. This is the goal and vision for these two physician owners of this private practice and it's a success. Dr. John and Dr. Ingrid practice obstetrics and gynecology, which includes management of any female medical issue from puberty, to pregnancy, to menopause and everything in between.

Dr. John and Dr. Ingrid Reyes moved to the North Atlanta area with one goal: to be able to practice personalized medicine. They emphasize the importance of providing medical care directed specifically for each patient—to give every patient compassionate, individualized medicine. "We hate to be rushed with our patients. As much time as our patients need, we want to be able to provide that. You can do that best in your own practice," says Dr. John. "We want to provide the same care to our patients that we would want for our friends, sisters, and mothers."

Most recently moving from Philadelphia, Dr. John and Dr. Ingrid are both originally from Texas, though they didn't meet until they were both in training in St. Louis. Dr. Ingrid continued her training in Philadelphia while Dr. John served as academic faculty for three years. They chose Johns Creek to settle in because, as they say, "this is where we wanted to plant our roots and grow our family. It's the perfect place to live, raise a family, and practice medicine."

Both Dr. John and Dr. Ingrid particularly enjoy obstetrics, which is the management of pregnancy and delivering babies. "It's such a special time in the family's life, and we feel so lucky to get to be a part of that experience," says Dr. Ingrid. Their practice is able to provide unique support, because as a husband and wife team, and as parents to a one year old son, they afford a special insight. Their patients benefit from always personally knowing their doctor on call. "You'll always know us, and we'll always know you. No surprises when it comes time to deliver!" says Dr. John.

Dr. John and Dr. Ingrid also provide care for all gynecologic issues, from routine annual exams to management of menopause, irregular cycles, and pelvic pain. They offer the most up to date and evidence based management for women's medical issues, including HPV testing, HPV immunization, and management of abnormal Pap smears.

The practice also specializes in advanced minimally invasive surgical options for all gynecologic procedures. "Minimally invasive gynecologic surgery is the best option for the majority of patients. It reduces the length of the hospital stay, reduces complications, reduces blood loss and risk of infection, provides for shorter recovery times, and is more cosmetically appealing." says Dr. Ingrid Reyes. "It's just better for you."

Modern Ob/Gyn is in the Emory Johns Creek Hospital Physicians Plaza located at 6335 Hospital Parkway, Suite 204 in Johns Creek. You can read more about Dr. John and Dr. Ingrid Reyes at their website, www.reyesobgyn.com or call their office at: 404-446-2496. They are currently accepting new patients.
